

LIBBY ALBANESE

Goal-oriented Electrical Engineer with multi-disciplinary background, specializing in electronically integrated devices and printed circuit board design.

Phone No: (203) 501-3753

Email: libby@albanese.com

Portfolio: libbyalbanese.com

Location: Boston, MA

EXPERIENCE

H2Ok Innovations – An IoT Analytics Startup in Greentown Labs

Hardware Engineer III | Aug 2021 – Present

- o Designed mixed-signals printed circuit boards for industrial environments, taking them from ideation to production
 - o Owned complete device designs including schematic, component selection, PCB layout, routing, fabrication, testing, and iteration
 - o Designed and certified EMI/EMC to FCC and CE standards
- o Optimized full electronics system of product for additional features and improved reliability
 - o Broadened optical sensing capability of industrial liquid sensors and designed and integrated new sensors
 - o Expanded range of industrial communication protocols via transmission gateway motherboard
- o Led technical architecture design across multi-phase projects, interfacing with multiple interdisciplinary teams, vendors, and manufacturers

Tufts Nolo Fabrication, Analysis, Simulation, and Testing Facility

Fabrication Specialist | Sept 2019 – May 2021

- o Educated undergraduate & graduate students in the use of 3D printers, laser cutters, & hand tools
- o Led workshops teaching fabrication and software skills

Tufts Mechanical Engineering Department

Teaching Assistant | Jan 2020 – May 2021

- o Courses included Mechanics II (Dynamics), Electronics and Robotics, Instruments and Experiments, Engineering Education Design

Robotics, Locomotion, and Biomechanics Laboratory,

PI: Dr. Woodward

Undergraduate Research, Climbing Robot | Dec. 2020 – May 2021

- o Designed a robotic system to mimic evolution by making small adjustments to the structure & function of an RC car to allow it to climb flat, curved, or bent vertical surfaces

Tufts Center for Engineering Education & Outreach

Teaching Fellow, STOMP | Sept. 2017 – Dec 2019

- o Developed a STEM-based curriculum for elementary school students
- o Taught students once a week and mentored them in engineering

Teaching Assistant, Grad. Level Courses | Sept. 2018 – Aug 2020

- o Supported K-12 educators in Engineering Education online courses

EDUCATION

Tufts University, Medford, MA | May 2021

BS in Mechanical Engineering & Biomedical Engineering Design

GPA: 3.55, *magna cum laude*

SUMMARY OF SKILLS

Design Software

KiCad, Altium (learning), SolidWorks, Onshape, Adobe Illustrator & Photoshop, Adobe Premiere

Fabrication:

Soldering (pick-and-place & through-hole), Manual Mill, Drill Press, Band Saw, Power Tools, 3D Printing

Programming Languages:

Python, C++, MATLAB, LabVIEW

Engineering Education:

EV3 MINDSTORMS, Spike Prime, Scratch, BlocksCAD, TinkerCAD

Languages:

American Sign Language (Proficient)

PATENTS

Lu, Lu, Sanchez, Gutierrez, Liu, Pesek, Haywood, Albanese. 2021. Methods and systems for monitoring fluids. US2022/0170850, filed Nov. 29th, 2021.

LEADERSHIP & OUTREACH

Norwalk Havoc Robotics League:

Referee

March 2023 – Present

- o Referee combat robotics tournament

Tufts Robotics Club:

President, Treasurer

Sept 2017 – May 2021

- o Designed, fabricated, & coded both competition & personal robots
- o Managed club projects, oversaw club operations
- o Expanded membership from 10 to 50
- o Increased budget from ~\$4K to ~\$20K

3Ps Theater Group

Lighting Designer, Electrician

Sept 2017 – May 2020

- o Designed & executed a complete vision for a theater production
- o Collaborated with other designers
